

Do you want to vote at the 2018 AAUP Annual Conference? Read this.

All AAUP members, including delegates, must register as an individual for the Annual Conference (see below). Delegates representing chapters or conferences must also complete the delegate credential form for each meeting. The AAUP Annual Conference runs from June 14-17 and includes three different business meetings. In order to vote in the AAUP-CBC Regular Meeting, the ASC Business Meeting, or in a weighted vote at the Annual Meeting, you will have to complete the appropriate delegate credential form. Each meeting has a different credential form and different rules for credentialing delegates. Please notice the deadlines to complete each form (different for each one).

Weighted Voting:

A weighted vote is a special kind of vote permitted in the AAUP Annual Meeting that allows credentialed chapter delegates to the Annual Meeting (that is, chapter delegates who have obtained credentials by using the above form) to cast votes proportional to the number of active members they represent. Also, any active members present who are not certified as delegates and not otherwise represented by a chapter delegate may vote in a weighted vote, but those members may only cast a single vote. **Remember: all chapter delegates must be registered for the Annual Conference and credentialed as a chapter delegate by 6:00pm on Friday, June 15, 2018 (as noted above). You may not be credentialed as a delegate from the floor of the AAUP Annual Meeting.** To read about weighted voting procedures, [click here](#).

Voting Member:

Any registered, qualified AAUP member in good standing can participate in votes at the Annual Meeting. Participation on behalf of a chapter in a weighted vote (see above) requires credentialing as a chapter delegate.
