

Chris Sinclair, PhD Mathematics. I have a BS from the University of Arizona in math/physics and a PhD from the University of Texas at Austin in mathematics. I joined the faculty of the University of Oregon after postdoctoral positions at the Pacific Institute for the Mathematical Sciences at University of British Columbia and Simon Fraser University, and the University of Colorado at Boulder. I have had shorter visiting positions at Max Planck Institut für Mathematik in Bonn, Germany, the Institut des Hautes Études Scientifiques in suburban Paris, and the Mathematics Sciences Research Institute in Berkeley. I am currently an associate professor with a joint appointment between the department of mathematics and the Clark Honors College. I have three graduate PhD students, three currently in the pipeline, and several current and completed honors students. I have served in many shared governance roles at the University of Oregon including University Senate President and President of the United Academics of the University of Oregon (our faculty union). I am currently United Academics President.
