Note: Salary increases for the years to 2003–04 are grouped in two-year intervals in order to present the full 1971–72 through current year series. Consumer Price Index for all Urban Consumers (CPI-U) from the US Bureau of Labor Statistics; change calculated from December to December. Nominal salary is measured in current dollars. The percent increase in real terms is the percent increase in nominal terms adjusted for the percent change in the CPI-U. Figures for All Faculty represent changes in salary levels from a given year to the next. Figures for Continuing Faculty represent the average salary change for faculty on staff at the same institution in both years over which the salary change is calculated. Figures for prior years have been recalculated using a consistent level of precision.

There were too few private-independent and religiously affiliated institutions in categories III and IV to generate valid separate statistics. These institutions are included in the All Combined column, however.

There were too few private-independent and religiously affiliated institutions in categories III and IV to generate valid separate statistics. These institutions are included in the All Combined column, however.

Note: This table is not comparable with tables 14 or 15 from the 2017–18 report and is based on 335 reporting institutions. Pay is for the 2017–18 academic year to enable more institutions to report. The standard course section is three credit hours, with some exceptions; see notes to Appendix III. Minimum pay reported as less than \$500 per section is excluded from the table but listed in Appendix III. For definitions of categories, see Explanation of Statistical Data. N.d. = no data or too few institutions for statistically valid reporting.

Number of Institutions Included in Tabulations, by Category and Affiliation, 2018–19

Number in Tabulations

Category	All Combined	Public	Private-Independent	Religiously Affiliated
I	235	157	53	25
IIA	403	189	75	139
IIB	231	47	75	109
III	72	72	0	0
IV	11	11	0	0
All Combined	952	476	203	273

Note: The number of individual institutions included in the appendices may differ from that shown in the tabulations. For-profit institutions are not included in the tabulations, as there are too few to constitute a valid separate category. For definitions of categories, see Explanation of Statistical Data.

Explanation of Statistical Data

Full-Time Faculty. The full-time faculty members reported in the survey are those included in the US Department of Education categories of “Primarily Instructional” and “Instructional/Research/Public Service,” regardless of whether they are formally designated “faculty.” They do not include clinical or basic science faculty in schools of medicine and military faculty. Full-time faculty members on sabbatical leave with pay are counted at their regular salaries even though they may be receiving a reduced salary while on leave. Full-time replacements for those on leave with pay are not counted. All faculty members who have contracts for the full academic year are included, regardless of whether their status is considered “permanent.” Institutions are asked to exclude (a) full-time faculty members on sabbatical or leave without pay; (b) full-time faculty members whose services are valued by bookkeeping entries rather than by monetary payments unless their salaries are determined by the same principles as those who do not donate their services; (c) full-time faculty members who are in military organizations and are paid on a different scale from civilian employees; (d) administrative officers with titles such as academic dean, associate or assistant dean, librarian, registrar, or coach, even though they may devote part of their time to instruction, unless their instructional salary can be isolated; and (e) research faculty whose appointments have no instructional component.

The academic ranks assigned to full-time faculty members are those determined by the reporting institution. Not all institutions use all ranks, and the definitions vary by institution. Institutions have been instructed to report “visiting” faculty members and those with instructional postdoctoral appointments at the rank of instructor.

“No rank” full-time faculty members meet the other criteria for inclusion, regardless of whether they are formally designated as “faculty.” They may have titles such as “artist in residence” or “scholar in residence.” Institutions that do not assign faculty rank are instructed to report all full-time faculty members as “no rank.” (See also the definition of category IV below.)

Part-Time Faculty. The part-time faculty members reported in the survey are those included in the US Department of Education categories of “Primarily Instructional” and “Instructional/Research/Public Service” and defined by their institutions as employed less than full time, excluding clinical or basic science faculty in schools of medicine and military faculty. Individuals meeting these criteria are reported regardless of whether they are formally designated as “faculty.” This category does not include individuals employed to meet short-term needs (for example, to cover a few weeks of a course) and students in the Federal Work-Study Program, even if their work has an instructional component.

The course sections for which part-time faculty pay is reported are those meeting the definition of an undergraduate class section in the Common Data Set for 2018–19 (<http://www.commondataset.org/>), item I-3: “an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes.” (See also the notes to table 14 and appendix III.)

Salary. This figure represents the contracted academic-year salary for full-time faculty members excluding summer teaching, stipends, extra load, or other forms of remuneration. Department heads with faculty rank and no other administrative title are reported at their instructional salary (that is, excluding administrative stipends). Where faculty members are given duties for eleven or twelve months, salary is converted to a standard academic-year basis. The factor used to convert salaries is reflected in the notes to appendices I and II.

Change in Salary for Continuing Faculty. The change in salary reported is for those full-time faculty members who remained at the same institution as the previous year. The change includes both promotions in rank and increases (or decreases) due to other factors.

Benefits. This figure represents the institution (or state) contribution on behalf of an individual faculty member; the amount does not include the employee contribution. The major benefits include (a) retirement contribution, regardless of the plan’s vesting provision; (b) medical insurance; (c) disability income protection; (d) tuition for faculty members and dependents (both waivers and remissions are included); (e) dental insurance; (f) social security (FICA); (g) unemployment insurance; (h) group life insurance; (i) workers’ compensation premiums; and (j) other benefits paid directly to the faculty member (for the most part, these include benefits such as moving expenses, housing, and cafeteria plans or cash options to certain benefits). Not all institutions reported all items. Institutions are asked to provide their best estimate of the data for the entire academic year.

Compensation. Compensation represents salary plus institutional contribution to benefits. It is best viewed as an approximate “cost” figure for the institution, rather than an amount received by the faculty member.

Institutional Categories. AAUP institutional categories are assigned to institutions by the AAUP Research Office based on the following institutional characteristics:

Category I (Doctoral). Institutions characterized by a significant level and breadth of activity in doctoral-level education as measured by the number of doctorate recipients and the diversity in doctoral-level program offerings. Institutions in this category grant a minimum of thirty doctoral-level degrees annually, from at least three distinct programs. (Awards previously categorized as first-professional degrees, such as the JD, MD, and DD, do not count as doctorates for this classification. Awards in the category of “doctor’s degree–professional practice” are reviewed on a case-by-case basis.)

Category IIA (Master’s). Institutions characterized by diverse postbaccalaureate programs (including first professional) but not engaged in significant doctoral-level education. Institutions in this category grant a minimum of fifty postbaccalaureate degrees annually, from at least three distinct programs. Awards of postbaccalaureate certificates are reviewed on a case-by-case basis.

Category IIB (Baccalaureate). Institutions characterized by their primary emphasis on undergraduate baccalaureate-level education. Institutions in this category grant a minimum of fifty bachelor’s degrees annually, from at least three distinct programs, and bachelor’s and higher degrees make up at least 50 percent of total degrees awarded.

Category III (Associate’s with Academic Ranks). Institutions characterized by a significant emphasis on undergraduate associate’s degree education. Institutions in this category grant a minimum of fifty associate’s degrees annually. Associate’s degrees make up at least 50 percent, and bachelor’s and higher degrees make up less than 50 percent, of total degrees and certificates awarded.

Category IV (Associate’s without Academic Ranks). Institutions characterized by the criteria for category III but without standard academic ranks. An institution that refers to all faculty members as “instructors” or “professors” but does not distinguish among them on the basis of standard ranks should be included in this category. However, if an institution utilizes another ranking scheme that is analogous to the standard ranks, it can be included in category I, II, or III as appropriate.

Abbreviations Used in Appendices I and II. Academic Ranks: PR = Professor; AO = Associate Professor; AI = Assistant Professor; IN = Instructor; LE = Lecturer; NR = No Rank; AR = All Ranks. All institutions that do not assign professorial ranks are listed in appendix II.

Col. (1) Institutional Category—The definition of categories is given above.

Col. (2) Institutional Control—PU = Public; PI = Private-Independent; FP = Private For-Profit; PR = Private-Religiously Affiliated.

Col. (3) Average Salary by Rank and for All Ranks Combined—This figure has been rounded to the nearest hundred. “All Ranks Combined” includes the rank of lecturer and the category of “No Rank.” Salary and compensation averages are replaced by a dash (—) when the number of individuals in a given rank is fewer than three.

Col. (4) Average Compensation by Rank and for All Ranks Combined—Same definition as that given for col. (3) but for compensation.

Col. (5) Benefits as a Percentage of Average Salary—Total benefit expenditure as a percentage of average salary for all ranks combined.

Col. (6) Percentage of Faculty with Tenure—This figure represents the percentage of faculty members tenured within a given rank. A zero indicates that tenured faculty are less than 0.5 percent of that rank.

Col. (7) Percentage Increase in Salary for Continuing Faculty—The percentage increase in salary for full-time faculty members remaining at the institution in 2018–19 from the previous year. This represents the average increase for individuals as opposed to a percentage change in average salary levels.

Col. (8) Number of Faculty Members by Rank and Gender—The figures represent the total number of full-time (FT) faculty members in a given rank.

Col. (9) Average Salary by Rank and by Gender—This figure has been rounded to the nearest hundred. Salary averages are replaced by a dash (—) when the number of individuals in a given rank is fewer than three.

Abbreviations Used in Appendix III

Col. (3) Part-Time Faculty Pay—No. = The number of part-time faculty members paid on a per-section basis. Min. (\$) = Minimum pay for a standard course section, whether from actual data or by policy. Max. (\$) = Maximum pay for a standard course section, whether from actual data or by policy. Avg. (\$) = Average (mean) pay for a standard course section.

Col. (4) Part-Time Faculty Benefits—Ret. = The proportion of part-time faculty members receiving an institutional contribution toward retirement benefits. Med. = The proportion of part-time faculty members receiving an institutional contribution toward health-care benefits.

Col. (5) Calendar—The institution's academic calendar.

Statement on Data Quality

The AAUP Faculty Compensation Survey collects data from colleges and universities across the United States through an online portal. These data are reviewed through our internal verification process. Whenever the AAUP believes an error may have occurred, we ask institutional representatives to review the specific issues we identify. Nearly all institutions comply with our requests for additional review. If resubmitted data meet our internal standard, they are approved for inclusion in published tables and appendices. Questionable data without an institutional response may be excluded.

While the AAUP makes every effort to report the most accurate data, the published tables and appendices may include inaccuracies, errors, or omissions. Users assume the sole risk of making use of these data; under no circumstances will the AAUP be liable to any user for damages arising from use of these data. The AAUP publishes additions and corrections to the Faculty Compensation Survey results online and may make modifications to the content at any time. The AAUP will also notify *Inside Higher Ed*, which publishes data from the survey on its website, of corrections to published tabulations.

Readers are requested to report possible errors in the published data to the AAUP Research Office at the address above.
