</tbody>
</table>

Note: The table is based on 1,079 responding institutions reporting comparable salary data for both years and 1,043 institutions reporting continuing faculty data. For definitions of categories, see Explanation of Statistical Data on page 39. N.d. = no data. There were too few private-independent and religiously affiliated institutions in categories III and IV to generate valid separate statistics. These institutions are included in the All Combined column, however. Rows labeled All Combined include lecturers and unranked faculty where reported.
